IMPORTANT NOTICE

Regarding adoption of New Building and Fire Codes

If you are an architect, engineer, designer or contractor that performs work within the State of California, please be advised that new building and fire codes will take effect on January 1, 2008. The following is a list of codes that will take effect on that date.

California Building Code – 2007 Edition
California Fire Code – 2007 Edition
California Plumbing Code – 2007 Edition
California Mechanical Code – 2007 Edition
California Electrical Code – 2007 Edition
International Wildland Urban Interface Code – 2006 Ed.
International Existing Building Code – 2006 Edition

Please be advised major changes have occurred with respect to the CBC and CFC. These codes are now based on the International Codes as published by ICC as opposed to the Uniform Codes previously in use.

All permit applications submitted after December 31, 2007, will be required to comply with the new codes.

It is recommended that you obtain training on the new codes. Training opportunities can be found at www.calbo.org and www.iccsafe.org.
